Subject: Gold King Mine -R6 Docs for Planning

I'll be out tomorrow so here's some files that can be worked on for Planning; mostly Mike. Matt is PSC but has more tasks than 2-3 persons. So Ben, if you can update the 204s and forward any other edits corrections that you see. I'm attaching the R6 ORG that may be tweaked or put into another better format.

Thanks

John J. Martin
